DELARO[®]
Complete

KEEP YOUR OPERATION MOVING FORWARD

Delaro[®] Complete Fungicide offers a distinctive chemistry combination and three modes of action for consistent disease control.

/// BENEFITS

- **Consistent Disease Control**
Three modes of action will provide consistent control of key soybean diseases under many different environmental conditions.
- **Higher Yield Potential**
A distinctive chemistry combination will help to reliably boost photosynthesis and increase grain fill, leading to higher yield potential and resistance management.
- **Improved Plant Health**
Will invigorate the soybean canopy to withstand environmental pressures for robust growth.

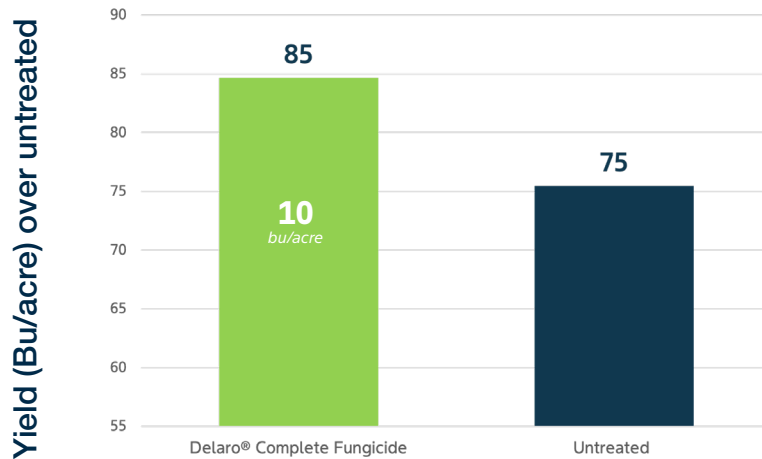

Key Soybean Diseases

- Alternaria Leaf Spot
- Anthracnose
- Asian Soybean Rust
- Brown Spot
- Cercospora Leaf Blight
- Frogeye Leaf Spot
- Pod & Stem Blight
- Powdery Mildew
- Rhizoctonia Aerial Blight
- White Mold (Suppression)

Delaro® Complete Fungicide 2025

Delaro Complete vs Untreated | Soybeans

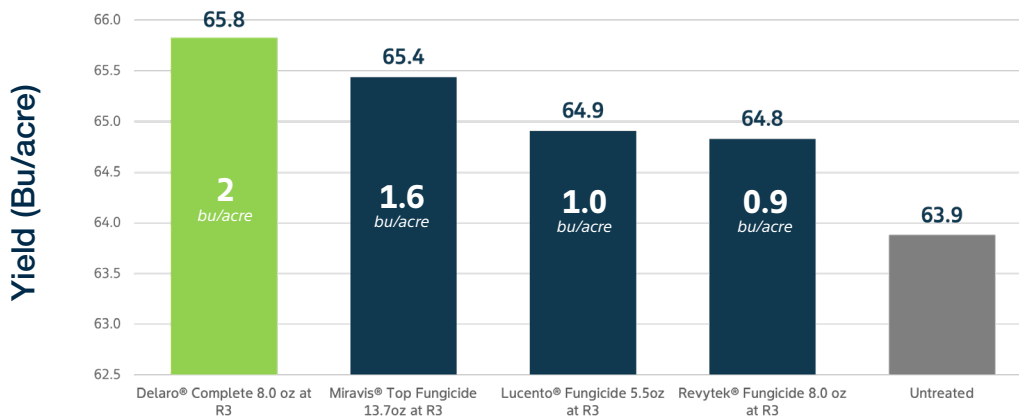

This data represents 72 side-by-side soybean yield comparisons receiving a single application of Delaro® Complete fungicide (8 fl oz/acre) applied at R-R4 compared to an untreated check across multiple locations throughout U.S in 2025 (data as 2-6-2025). 2025 Bayer.

Crop: Soybean

Locations= 72 Demo plots IN (47), MN (6), MO (1), ND (1), SD (18)

2025 Bayer Replicated Strip Trials

Bayer replicated strip trials

Locations: 6 IA (3), IN (1), SD (1), ND (1)

Diseases reported: Frogeye leaf spot, Septoria leaf spot

Disease pressure: Low

Crop: Soybean

ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS.

Performance may vary, from location to location and from year to year, as local growing, soil and environmental conditions may vary. Growers should evaluate data from multiple locations and years whenever possible and should consider the impacts of these conditions on their growing environment. The recommendations in this material are based upon trial observations and feedback received from a limited number of growers and growing environments. These recommendations should be considered as one reference point and should not be substituted for the professional opinion of agronomists, entomologists or other relevant experts evaluating specific conditions. The distribution, sale, or use of an unregistered pesticide is a violation of federal and/or state law and is strictly prohibited. Check with your state department(s) of agriculture, local dealer or representative for the product registration status in your state. Not all products are registered for use in all states and may be subject to use restrictions. Bayer, Bayer Cross and Delaro® are registered trademarks of Bayer Group.
